TELECINE 7:

Ext. Rocky Terrain.  
Night.

THE DOCTOR is moving cautiously along the base of a low cliff or bank. The base of the cliff has eroded at certain points providing enough space for a man to crawl in to.

THE DOCTOR hears a sound ahead of him. Looks around desperately for a place to hide. Sees the gap below the cliff and wriggles into it, pressing to the back, lying flat with virtually no room for movement.

TWO searching DALEKS glide in to sight. They move toward the cliff and pause immediately outside the Doctor's hiding place. We show his VP. The DALEKS bases are only a few inches from his face.

ANOTHER ANGLE showing the DALEKS. They are totally unaware that the Doctor is so close, but show no sign of moving away.

Ext. Crevice. Night.

THE DOCTOR lies on his side. One arm extended. Not daring to move for fear of making a sound. His main concentration is on the DALEKS, but something at his finger tips draws his attention.

THE DOCTOR twists  
his head awkwardly to SEB,  
then reacts with a shudder.

Writhing slowly on  
to his hand is a green  
jelly like blob. The  
size of a plate, it  
undulates onto his  
wrist and starts  
up his arm.

THE DOCTOR steels himself  
to make no movement.  
Sustain for as long as  
possible.

slowly away.

THE DOCTOR rolls out  
from his hiding place and  
with a gesture of disgust  
and loathing pulls  
the blob from his shoulder  
and hurls it back into  
the crevice. With a shudder  
he moves away quickly.

Ext. Rocky Terrain. Day.

In a flat open area,  
the MOVELLAN'S are  
preparing to test the  
firestorm bomb.  
Supervised by LAN, TWO  
or THREE MOVELLAN CREW MEN  
are setting up a transparent  
tube. It is about  
six feet tall and a  
couple of feet in diameter.

Closed at the top, open at the base. Rather like an inverted test tube. They set it vertically on a prepared base. LAN is holding the nova weapon.

We show it clearly. A small tricked up metal box with a very evident count down mechanism.

Ext. Rocky Terrain. Day.

TYSSAN is moving carefully under cover.

Alerted by a sound ahead he presses in to cover. STAY TIGHT ON HIM, tense and ready for action. The tension falls from his face and he smiles.

TYSSAN: Doctor.

WIDEN to show THE DOCTOR MOVE INTO SHOT. He seems pleased to see TYSSAN.

THE DOCTOR: Tyssan.

TYSSAN: I've been looking for you. It's hard to move around though. ... There are Dalek patrols everywhere.

THE DOCTOR: So I've seen.

The TWO MEN settle on a rock.

TYSSAN: I found the other prisoners. They told me what you'd done to free them ... They're very grateful ...

THE DOCTOR: Oh ... really ... it was nothing. Where are they now?

TYSSAN: Hiding. If we can lay our hands on some weapons, I'm hoping to turn them into some sort of fighting force...

THE DOCTOR: Could be very useful ...

TAKE AN ANGLE  
on the backs of  
the TWO MEN from a  
point some distance  
behind them.

In deep foreground  
we see a DALEK  
sucker cup edge into the  
lens. More is  
revealed as the DALEK  
edges forward.

WIDEN to show the DALEK  
edging up behind the  
TWO UNSUSPECTING MEN.  
When it has them safely  
covered and in range:

DALEK: Remain where you are.

THE DOCTOR and TYSSAN  
leap to their feet  
and turn to face the  
DALEK. At this point  
blank range they have  
no alternative but to  
raise their arms in a  
gesture of defeat.

DALEK: You will turn and walk  
ahead of me. If you make any  
attempt to escape, you will be  
exterminated.

THE DOCTOR shurgs.  
In the same instant,  
the DALEK virtually  
explodes into flame. Spins  
around helplessly,  
then blows up.

THE DOCTOR and TYSSAN  
look around bewildered.

Their VP to the high  
rocks that surround them.

TWO MOVELLAN CREW MEN  
stand on a high vantage  
point. Smoking guns  
in their hands.

THE DOCTOR sweeps off  
his hat in a grand gesture.

THE DOCTOR: Awfully grateful. Very  
decent of you ...

The TWO MOVELLAN  
CREWMEN come bounding  
down the rock to  
join THE DOCTOR and TYSSAN.

THE DOCTOR greets them  
with a broad smile  
that slowly vanishes  
as the MOVELLANS  
level their guns.

FIRST MOVELLAN: You will accompany  
us back to our space craft.

THE DOCTOR: All in good time ...  
There are some other things I must  
do first.

FIRST MOVELLAN: That is not a request.  
It is an order. Move.

THE DOCTOR: I do seem to be in  
demand today.

THE DOCTOR makes no turn, seeming to submit meekly. Then with a swift movement he spins around and attacks the MOVELLAN.

TYSSAN joins in.

The surprise attack takes the MOVELLANS off guard. The SECOND MOVELLAN is knocked unconscious to the ground. FIRST MOVELLAN is disarmed but breaks free and runs off.

TYSSAN takes one of the fallen weapons and aims it. THE DOCTOR knocks it down before he can fire.

THE DOCTOR: No ... let him go ...

TYSSAN: Why have they suddenly turned against you?

THE DOCTOR: I'm not sure they were ever for me ... Now ... let's have a look at this one ... there's something I want to confirm.

THE DOCTOR kneels beside the MOVELLAN. Rips open the uniform jacket.

We do not see what THE DOCTOR does next.

HOLD ON THE DOCTOR'S and TYSSAN'S faces. THE DOCTOR intent. TYSSAN puzzled.

TYSSAN: What are you doing?

THE DOCTOR: You'll see in a moment.  
(cont...)

Then THE DOCTOR  
gives a look of  
triumph.

TYSSAN is revolted.

THE DOCTOR: (cont) As I thought.  
Hardly better than the Daleks ...  
Just another race of robots.

WIDEN to show the  
MOVELLAN'S "chest"  
is a removable panel.  
Inside the chest is  
a mass of electronics  
and machinery.

Ext. Rocky Terrain. Night.

The Nova Test.  
TWO MOVELLANS hold  
the transparent tube  
vertically a few inches  
above its base.

MOVELLAN: Ready.

LAN adjusts the  
timer of the weapon.  
Moves forward and  
sets it in the  
centre of the base.  
Indicates that the tube  
now be lowered to  
cover it.

LAN: Make sure the seals are  
tight.

The MOVELLANS check  
the base then nod.

LAN: Alright ... move back.

The MOVELLANS and LAN move to a safe distance. As they do insert CLOSE UP on the timing device. It has about half a minute to run.

The GROUP stand watching.

MOVELLAN: I know what it does, but I don't know how it does it.

LAN: It changes the mollecular structure of the atmosphere. The atoms become flamable ... As they are ignited they set up a chain reaction ... If the Nova device was activated outside of the protective shielding the atmosphere surrounding this planet would burn up in seconds ... It would turn this world into nothing more than a giant cinder ...

CLOSE ON the timing device as it clicks to detonate. Instantly the transparent tube is filled with blinding searing flame.

The MOVELLANS shield their eyes. Show the violent flame again and:

TELECINE 8:

THE DOCTOR and  
TYSSAN moving carefully  
through cover. As  
they round a rock,  
THE DOCTOR halts  
and reacts to what he  
sees.

Ext. Rocky Terrain. Night.

The open area of the  
test site. No Movellan  
in sight.

Show the transparent  
tube in LONG SHOT as  
though from the  
DOCTOR'S VP. Then ZOOM  
TOWARD IT.

ROMANA is in the tube.  
Still unconscious  
but held erect by the  
confines of the tube.  
The Nova Device is  
at her feet and the timer  
shows it has less than  
a minute to go.

RESUME on  
THE DOCTOR. He looks  
around carefully,  
but no Movellan is  
in sight. Swiftly he  
turns to TYSSAN.

THE DOCTOR: Stay under cover ...

THE DOCTOR dashes  
forward and runs  
quickly across the  
open ground to the  
tube and ROMANA.

THE DOCTOR tries  
to lift the tube,  
but it remains firmly  
in position. He  
strains at it to,  
no effect.

Show the timer edging  
around to thirty  
seconds remaining.

THE DOCTOR: I can't move it ...  
I can't move it!!!
